

A TRUSTED, PROVEN PARTNER FOR FEDERAL HEALTHCARE MODERNIZATION

We live in an exciting time in federal healthcare. The amazing advances we've seen in health science and delivery of care, the challenges we've risen to amid the pandemic, the systemic reforms we've put in place, and the daily expert care we've provided to those in need — these all call to mind how critical the work of our federal healthcare community has been and continues to be.

And there are surely more exciting opportunities ahead as we continue to push the boundaries of what's possible in healthcare.

Technical capabilities like data analytics, artificial intelligence, machine learning, microservices and APIs, Agile development, and human-centered design are truly transforming approaches for better, faster outcomes. At National Government Services, we recognize how critical it is that federal healthcare agencies succeed in their varied missions. That's why we've been working side-by-side with federal agencies for more than five decades to advance healthcare and serve communities across the country.

WHAT WE DO AND WHY

Federal healthcare organizations carry out a wide array of critical missions and responsibilities, ranging from medical research and public safety to healthcare service delivery and regulatory affairs. Each plays a vital role in our nation's well-being. Our passion as a company is to support the success of those missions — and the communities they serve — with world-class expertise and solutions that are tailored to each client's needs, goals, and culture. Just as with our clients, federal healthcare isn't just what we do — it's all we do.

OUR KEYS TO SUCCESS

Every federal healthcare organization is unique. Each has its own mission, culture, priorities, constraints, long-term goals, ways of operating, and IT environment. Our approach with every client starts the same way: by developing a deep understanding of and alignment with the client's current state and vision for the future. That becomes our north star for everything we do to support our client's success, from assembling the right mix of talent for the task at hand to designing and implementing innovative solutions. Ultimately, our success depends on whether our solutions fully address the client's needs, are embraced by the people using them, and make a positive difference in the lives of those they serve.

WHAT SETS US APART

OUR FOCUS

We're 100 percent focused on federal healthcare.

OUR TRACK RECORD

We provide consistently exceptional service, high-quality deliverables, superb customer support, and expert contract management.

OUR BEST-IN-CLASS SOLUTIONS

We leverage a vast portfolio of leading-edge tools, processes, and solutions from one of the nation's leading health benefits companies.

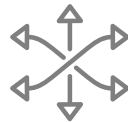

OUR PEOPLE

Our leaders and associates share our passion and intimate understanding of federal healthcare

OUR ADVANCED SECURITY

We're industry leaders in federal health security, governance, and compliance.

OUR VERSATILITY

We support many facets of federal health IT, including helping agencies modernize their infrastructure and systems.

HIGHLIGHTS

We manage best-in-class, multi-award contracts.

We have vast experience providing operational, technical, and maintenance services for federal health information systems and subsystems.

We have extensive reach and prominence in federal healthcare and within the federal contractor community.

We leverage the same transformational experience that we preach by modernizing our own infrastructures, applications, products, and processes to make them smarter, more agile, less costly, and more human-centered.

CONCLUSION

Federal organizations are leading healthcare through wondrous changes and advances. But to serve them well, it will take both technical expertise and mission expertise to deliver the solutions and capabilities that will meet the complex needs of federal end users and the people they serve. Federal health programs are our specialty. Many of the country's signature health initiatives are powered by our Digital Health Solutions, Business Process Solutions and Clinical Quality Solutions. Dedicated to providing tailored solutions to agency needs, National Government Services continues to be a valued, trusted partner with government in advancing the evolution of federal health.
