

FINANCIAL MANAGEMENT

A TEAM OF HIGHLY QUALIFIED FINANCE PROFESSIONALS WITH PROFICIENCY OPERATING WITHIN THE FRAMEWORK AND GUIDELINES OF A FEDERAL HEALTH CARE ENVIRONMENT.

The National Government Services Financial Management team provides clients with a payment processing environment that encompasses strong internal controls to ensure timely, secure and accurate payments.

TRUST FUND MANAGEMENT

On an annual basis, National Government Services processes over 252 million Medicare claims and administers benefits of more than \$75 billion from the Medicare Trust Fund.

Our systems are designed to handle fluctuations in our customer's requirements so we can handle additional workload or easily stand up new programs as needed.

We protect trust fund and agency dollars by maximizing reimbursements and providing accurate oversight and tracking of federal health care funds.

SECURE PAYMENTS

National Government Services has proven safeguards and controls to help eliminate risk and prevent disruptions in our payment process. Customers can rest assured National Government Services payment systems are reliable, safe and secure.

ACCOUNT PAYABLE FUNCTIONS

National Government Services has a long history of successfully developing accounts payable systems. Our core customer, the Centers for Medicare & Medicare Services (CMS), has consistently rated National Government Services as "Exceptional" in their contractor performance ratings. Our practice understands the requirements for complex financial management initiatives and has established relationships with vendors in the financial management area to build solutions that exceed our customer requirements.

PAYMENT SYSTEM

Leveraging our experience in managing billions of dollars from the Medicare Trust Fund, our financial management team has highly performed in ensuring the management of all payments are done efficiently. National Government Services uses a quality control mechanism driven by technology and a process infused with multiple check points to reconcile data between financial and clinical systems.

PROCESSING APPROXIMATELY 252 MILLION CLAIMS ON AN ANNUAL BASIS, OR ON AVERAGE OF \$75 BILLION IN PAYMENTS.

PRACTICE APPRAISED AT CMMI LEVEL 4.

FINANCIAL MANAGEMENT SOLUTIONS IN ACTION

OUR SYSTEMS ARE COMPLIANT
WITH ALL SECURITY AND
CONTROL REQUIREMENTS
AND BUILT WITH SCALABILITY
TO MANAGE FINANCIAL
TRANSACTIONS REACHING
INTO THE TENS OF BILLIONS.

WORLD TRADE CENTER (WTC)

The World Trade Center Contract was established to support the health care reimbursements for the first responders and their families. National Government Services delivered a solution that provides flawless integration of services between paperless technology, the electronic 835 remittance advice, and an electronic version of the standard paper remit (SPR).

PAYMENT FILE DEVELOPMENT CONTRACTOR (PFDC)

To manage the distribution of Electronic Health Record (EHR) incentive payments to eligible health providers and hospital systems, CMS selected National Government Services to be the sole holder of the Payment File Development Contract (PFDC). We maintain a high level of quality by ensuring that controls and governance are in place and adequate data is shared between stakeholders to make accurate and timely payments to the providers who meet the requirements of the HITECH program.

SMALL BUSINESS HEALTH OPTIONS PROGRAM (SHOP)

The Small Business Health Options Program offers small business employers a way to purchase quality health care plans provided by private insurance companies. In this contract our financial management expertise is leveraged for the efficient aggregation of premiums in the Federally-Facilitated Exchange (FFE) and the distribution of accurate and timely payments from employers to issuers.

MEDICARE ADMINISTRATIVE CONTRACTOR (A/B MAC)

We are responsible for the oversight and administration of health care claims received from provider practices and suppliers, ensuring the information is compliant with Medicare guidelines and acceptable to proceed to payment.
